

Defining our Transportation Future through Community Collaboration

Transportation Needs Survey

The Calaveras Council of Governments (CCOG) is asking for your help to determine future transportation projects and programs for the next 20 years. You may take this survey on-line at www.calacog.org or fill out this form and mail to CCOG, P.O. Box 280, San Andreas, CA 95249 or fax to 209-754-2096.

Please rank, using the numbers from 1 to 5 (number 1 is your highest priority), the following transportation needs in the Calaveras region.

- ___ Invest in more road maintenance
- ___ Invest in more transit, pedestrian and bicycle options
- ___ Decrease traffic congestion
- ___ Improve traffic safety
- ___ Improve traffic flow by allowing more vehicles on the roadway

Describe any needed improvement to roadways, intersections, public transit services, sidewalks, bike paths, or any other part of the transportation network in Calaveras County. Be specific about the location and type of improvement needed (increasing number of lanes, adding turning lanes, adding bike lanes, sidewalks, street lighting, etc.)

Describe one project proposal here: _____

Please check the boxes that apply to this project proposal:

- This project would improve traffic flow by allowing more vehicles on the roadway.
- This project would increase safety.
- This project would reduce traffic congestion.
- This project would encourage other transportation modes than automobile (bicycle, pedestrian, public transit).
- Other benefit of the project: _____

You may submit as many different project ideas as you like.

Do you have any additional comments that would help us to plan transportation projects?
 Use the back of the paper if you need more space.
