

Have you seen this eye-popping ride out on the road? We hope so, the purpose is to raise awareness about and increase the forming of new ride-shares. Living in the Foothills can require drives longer than the State average (miles). Why not look to cut the costs of this drive by sharing the miles/gas/time with one or more folks who live and work in similar locations.

There are many ways to form a carpool and we want to help. If we can help make you more comfortable with the idea of carpooling, or answer questions relating to the dynamics of carpooling, please give us a call. If we can share the ride with you we will. Otherwise, we will work to try and find someone else who is looking to carpool or already carpooling in your area.

See you on the road,

Tyler Summersett
Carpool Guy
